Power: 36W Fan Blade: 150mm RPM: 2500 Duct Size: 150mm

Climate Class: T

Airflow: 330m³/hr

SAFETY

This product should be installed by a suitably qualified person in accordance with Australian and New Zealand Wiring rules. Always disconnect the power to the fan before servicing. In the case of failure, disconnect from mains supply and return to Vynco for service.

- Make sure the power is switched off before installing the fan.
- Dont use the fan if the power cord or plug is damaged.
- Don't use the fan if it's damaged, malfunctions or is dropped.
- The fan is designed for indoor use only.
- Don't put any insulation around or over the fan.
- For inline duct use, precautions must be taken to avoid the backflow of gases into the room from the open flue of gas or other fuelburning appliances.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instructions concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

INSTALLATION

- 1. Mount the fan on a solid surface using the mounting bracket.
- 2. Attached 150mm ducting onto each end of the fan using duct tape.
- 3. Make sure the ducting is not impeding the fan blade.
- 4. The duct should be pulled tight and cut to length, otherwise the performance of the fan will be affected.
- 5. Plug the fan into a power point.

WARRANTY

This product is covered by the standard 5 year Vynco Warranty - proof of purchase is required. Please contact Vynco for details of returns procedure.

NOTE: This product contains NO user serviceable parts.
