

### RECESSED MCQUEEN COLOUR CHANGE DOWNLIGHTS - M5R, M6R & M8R

#### SAFETY INFORMATION:

To ensure correct function and safety, please read and follow all instructions carefully before using the product:

- Turn off power before installation or before doing any maintenance work.
- Do not install any luminaire near a heat source.
- Do not exceed the nominal supply voltage or amperage ratings.
- Take care not to pull any electrical wires during unpacking as this may damage the connection.
- Lay out all the components on a smooth surface and make sure there are no components missing before assembling.
- To avoid injury or damage to the fitting, please ensure that power leads and screws are secure before connecting the power.
- All wiring and installation of the light fitting must adhere to AS/NZS 3000 Wiring Rules.

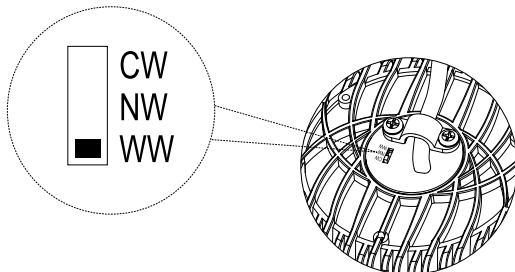

These downlights are rated to IP54 and so is suitable for indoor areas including bathrooms and covered/sheltered areas such as porches.

#### INSTALLATION INSTRUCTIONS:

- Switch off before installation.
- Switch on only after complete installation and examination of the circuit.
- Installation and maintenance should only be completed by a registered electrician.

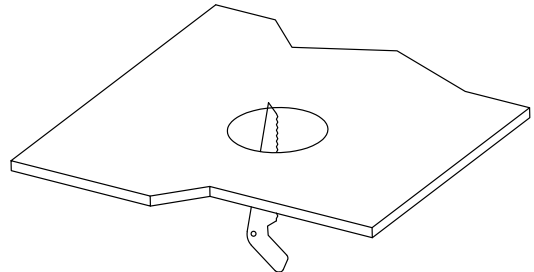

Turn off power supply before starting any installation. Read instructions, check you have all the tools and accessories to complete the installation correctly.

1.

Select the desired colour temperature before installation.

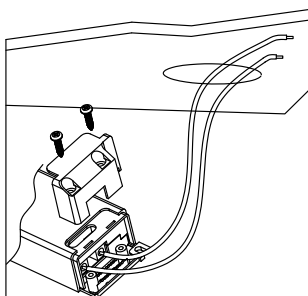

2.

Cut a hole in the ceiling to the cutout size of the LED downlight (see cutout reference table below).

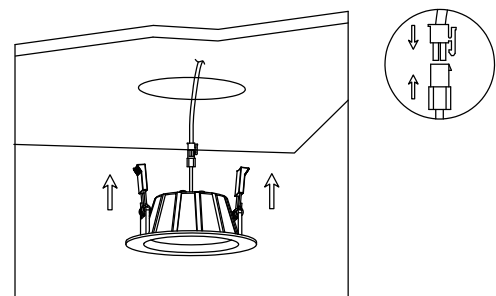

Cutout Reference Table	M5R	M6R	M8R
Downlight Diameter	Ø170mm	Ø190mm	Ø228mm
Ceiling Cutout	Ø140-150mm	Ø160-170mm	Ø200-210mm

3.

Use a screwdriver to open the driver terminal cover, feed the main AC wire L.N. in terminal block respectively, then fix the cover back on.

4.

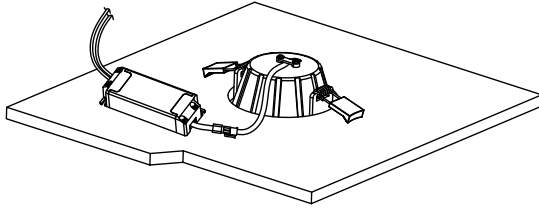

Connect the downlight with driver, hold back the spring clip then push the downlight into the hole.
