

CRAWFORD

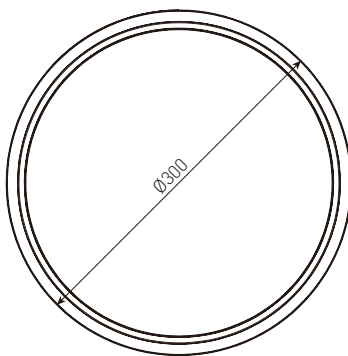

COLOUR CHANGE LED OYSTER

- The colour temperature can be changed using a toggle switch on the back of the fitting
- Operating Temperature -20°C to +45°C
- Suitable for use in indoor wet areas (not suitable for placement near hot steam)
- 50,000 Lifetime hours under normal conditions
- Dimmable
- Surface mounting
- White gasket used, instead of standard black, so that it cannot be seen through the lens from the front
- Application suggestions: offices, retail spaces, schools, hotels, stairwells, lobbys, hallways and receptions.
