

- Electronic switch, activated by breaking a light beam with the insertion of a card.
- Switch off delayed 1 minute after card removal to allow guests time to leave the room prior to lights etc. switching off.
- Can be activated with any standard credit card sized card. Does not require a dedicated shaped card.
- Fits into a standard vertically mounted flush box to suit standard wiring installations.
- Matches the Vynco Home switchgear range, available in black and white.
- Designed, engineered and tested in New Zealand.

## VYNCO HOME CARD SWITCH
