Panel ceiling installation instruction

1. Take out the frames (1pc A frame, 1pc B frame, 2pcs C frame), screws (12pcs M4 round screw, 2pcs countersunk screw) and 4pcs corner fittings.

2. Joint the surface mounted frame with corner fittings, C frames must be in opposite position.

3. Knock the plastic anchor into ceiling, fix the surface mounted frame on the ceiling by screws.

4. Remove one side C frame, take out the corner fitting.

5. Connect panel light to power supply, insert panel light into the frame.

6. Fix side C frame back by screw.

7. Make sure the frame and panel light are firmly fixed, turn on the power.
