NOTES

Please use professional electricians to install the fitting

If any abnormal situation occurs during install, please cut off the power supply.

Please clean the floodlight glass part regularly; to keep great lighting transmission effect.

Please remove the dust of floodlight shell termly, in order to keep good heat dissipation effect.

Please do a good anti-thunder work in power supply input end, so it can keep stable working voltage.

Don't clean with water or caustic solution, please use the dry dishcloth.

The fitting must be grounded.

There is high voltage inside the fitting, please don't remove it to prevent electric shock.

As there is glass accessory, please handle it gently during handling and storage.

The external flexible cable and cord cannot be replaced. If there is any damage, the fitting should be discarded.
