## **REFRAME HOW YOU THINK ABOUT SWITCHGEAR**

### **Building or renovating your next home?**

Vynco's POWER UP programme provides you with multiple options regardless of your budget. Whether it's something classic or completely customised, you'll be surprised at the options you have to complete your home.

# VYNCO HOME

Our Home switchgear and socket range embodies a classic look that would complement any home. Home is the logical choice for any project.

Home is available in both black and white, with the ability to change out and customise any specialty switches to suit your specific needs.

# VYNCO VILLAGE

Engineering excellence meets elegant design in the Vynco Village range.

With its extra large, easy to identify switch and specially designed easy to use rocker, the Village range is perfect for people with reduced or impaired visual and motor skills, or when it suits a design brief. Designed to match the Metro range's clean lines and elegant curves, Village also makes it easy to create a cohesive interior aesthetic without having to sacrifice functionality.

The Vynco Village range is proudly researched and designed right here in New Zealand by Vynco's in-house R&D team.

\* Applies to Switchgear only.

# SWITCH ON TO CUSTOMISATION

## Inspired to do something a little different?

Vynco has multiple customisation options. You can choose your own colour to match your decor, or create a feature accent on your wall. You can also select from our large range of specialty switches, dimmers, motion sensors or USB chargers.

To view our full range of specialty switches visit:  
**VYNCO.CO.NZ**

## CUSTOM POWDER COATING

**Metal cover plates can now be powder coated to Dulux colours! Enquire about our powder coated\* Urban options today.**

We provide special powder coating, from a set colour range, to give your switchgear a more matte, durable finish and an exact colour match.

Powder coating metal plates removes unwanted sheen and makes for a softer yet high quality accent to match the mood of your home. Future-proof your home for when colour trends change by simply swapping out the plates.

\*Minimum order quantities apply.

# SWITCHES

We have a range of different switches to suit your requirements. You can choose from standard, dedicated, push button switches or a push button dimmer which can also be used as a standard switch.

STANDARD ROCKER SWITCH

Standard switches can be ordered as complete units (refer to previous pages).

DEDICATED ROCKER SWITCHES

Dedicated switches are used for specific items or lighting in the home (i.e. "sensor" or "outside" which are laser engraved).

PUSH BUTTON SWITCH

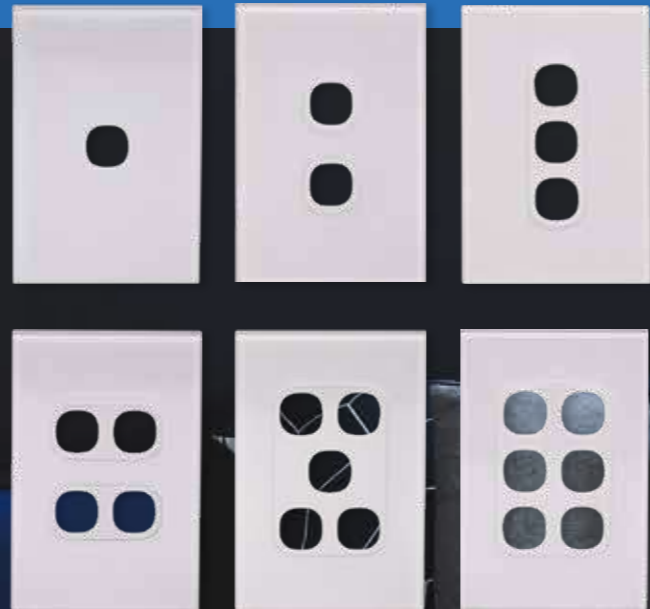

The push button switch and dimmer have a blue LED making it easy to locate in the dark.

PUSH BUTTON DIMMERS

**CUSTOM ENGRAVING AVAILABLE ON REQUEST**

Plates can be purchased separately, for 1-6 switches when selecting custom options such as dedicated switches, dimmers and push buttons.

# DIMMERS

Dimming options for your home – great for living rooms, bedrooms, and home theatres. Select the rotary dimmer for a more traditional look, or the push button dimmer for a modern option.

TRADITIONAL DIMMING OPTION WITH STANDARD SWITCHES

OR

TRADITIONAL DIMMERS USING MODERN PUSH BUTTON SWITCHES

OR

REMOVE TRADITIONAL DIMMERS AND OPT FOR MODERN PUSH BUTTON DIMMERS

Use the push button dimmer for a flush look, complimenting the slimness of our Urban and Metro ranges.

88PIRM  
MOTION SENSOR

## MOTION SENSORS

Great for use in walk-in wardrobes, ensuites, pantries and hallways. Used in conjunction with the Diaz Step Light, simply walking past the sensor will turn the light on.

88USB2  
USB POWER  
CHARGER

## USB POWER CHARGERS

Need to charge your phone or other USB appliance? These chargers are perfect for living rooms, studies and bedrooms, removing the need for power adaptors and additional power points. These chargers can also be used in a switch plate, not just in a power point.

88USBMAC  
USB A+C POWER  
CHARGER

### MOTION SENSOR WITH THE DIAZ STEP LIGHT

CUSTOM  
COLOURS  
AVAILABLE

## DIAZ STEP LIGHT

Match the Diaz Step Light to any of our Urban or Metro switches or power points, available in white, black metal or silver metal. The Diaz Step Light is perfect for illuminating hallways, stairwells, or under vanities.

# PACKAGING WITH THE ENVIRONMENT IN MIND

Sustainability is a big part of what we do and who we are at Vynco. We strive to minimise our environmental impact where possible, to keep New Zealand clean and green.

We have removed most plastics and paper from our packaging, including moving instructions to our website in digital form, which has saved over 110,000 sheets of paper and counting! We now use biodegradable, molded fibre packaging across some of our range, which breaks down with exposure to sun and water, at a much quicker rate than other materials. Like egg cartons, this form of packaging is composed of paper, card and newsprint, and fits snugly around the product, preventing damage.

Help us to reduce construction waste from your home by choosing Vynco products.

**This catalogue has Vynco's standard switchgear product range.**

For information on our full range, visit our website [vynco.co.nz](http://vynco.co.nz) or follow us on Facebook or Instagram @vynco\_industries

### **How can I see the product?**

**If you want to get your hands on the product, please contact your local electrician and they will be able to show you some samples.**

Alternatively, most leading electrical wholesalers will stock these ranges and will be happy to show you the product in-store. If these options don't suit, please contact our team at [sales@vynco.co.nz](mailto:sales@vynco.co.nz) and we'll arrange a viewing.
